Truvox International launches VTVe Compact tub vacuum

“Like all Truvox International machines, the design of the VTVe Compact has focused on ease-of-use and manoeuvrability, coupled with maximum reliability and performance.”

Truvox International has introduced the new VTVe Compact tub vacuum, an entry-level vacuum cleaner that offers excellent performance and is ideal for daily vacuuming.

Following the success of the VTVe tub vacuum, Truvox has responded to customers’ requirements for an entry level vacuum. By using the same hose and bag connection, customers can use their existing VTVe accessories.

“The new VTVe Compact is ideal for daily vacuuming in every environment,” says Truvox International UK National Sales Manager Paul Robinson. “Weighing only 5.4kg the VTVe Compact is light and manoeuvrable and easy to move between cleaning jobs. It has a 10-litre capacity for high productivity and delivers exceptional performance. The VTVe Compact features 2-stage filtration, including HEPA 13 media bag.

“Like all our machines, the VTVe Compact is designed to be simple to use and easy to maintain, from the on/off button to the easily accessible on-board cleaning tools. A crevice and brush tool for detailed cleaning and hard to reach areas are included, and the power cord can be stored securely on the holder for transportation and storage.

Focused on ease-of-use and manoeuvrability

The VTVe Compact joins Truvox’s popular established Valet range of commercial vacuum cleaners, including the VTVe, the VBPIIe commercial backpack vacuum cleaner, and the recently launched Valet Dual Motor Upright.

“Proper floorcare in every environment is essential as it makes a major contribution to health, safety and hygiene,” concludes Paul Robinson. “Throughout and since the pandemic, cleaning routines have become more of a front of house activity, so we are proud the new VTVe Compact looks so professional, as we know that visible cleaning reassures consumers. Like all Truvox International machines, the design of the VTVe Compact has focused on ease-of-use and manoeuvrability, coupled with maximum reliability and performance.”

About Truvox International

Truvox International is a leading global manufacturer and supplier of commercial and industrial floorcare machines, based in Southampton, England.

From the production of its first electrical polishing machines in the early 1960s, Truvox has successfully expanded both its product range and its geographic reach to a point where it is now recognised in over 70 countries worldwide.

Truvox International has a wide range of well-established brands including Orbis rotary burnishers, Hydromist carpet extractors, Valet vacuums, Multiwash scrubbers and Cimex three brush technology.

In 2007, Truvox International became part of the Tacony Corporation, based in St Louis, Missouri, USA. Tacony Corporation has three core divisions: Commercial Floorcare; Home Floorcare; and Sewing.
