Robert Scott launches innovative to improve cleaning ergonomics Ergo-Globe Curve Handle

Commercial cleaning product manufacturer and distributor **Robert Scott** has announced the launch of the Ergo-Globe Curve Handle – a groundbreaking, ergonomically designed telescopic cleaning handle created to improve cleaning performance while reducing strain and fatigue for operators.

Designed with user comfort and efficiency in mind, the Ergo-Globe Curve Handle helps reduce bending, stretching and repetitive strain during everyday cleaning tasks. Its distinctive curved design minimises the need to rotate the wrist and arm when carrying out the traditional figure-of-eight mopping action, helping operators maintain a more natural and comfortable working position.

The handle also features a comfortable ergonomic grip and a rotating, non-slip globe, allowing smoother movement and improved control during use. Together, these elements help reduce fatigue during prolonged cleaning tasks and support more efficient cleaning routines.

Manufactured from lightweight aluminium, the Ergo-Globe Curve Handle is designed to reach further under furniture and fixtures, reducing the need for operators to overreach or stretch.

Alastair Scott, Sales Director at Robert Scott, said: “Cleaning operatives carry out highly repetitive tasks every day, so ergonomics plays a crucial role in both wellbeing and productivity. The Ergo-Globe Curve Handle has been designed to support a more natural cleaning motion, helping reduce strain while also improving reach and control. It’s a simple but highly effective innovation that can make a real difference to daily cleaning routines.”

By combining thoughtful ergonomic design with practical functionality, the Ergo-Globe Curve Handle represents another step forward in cleaning equipment innovation from Robert Scott.

About Robert Scott

- Robert Scott is a fourth-generation family business, dating back to 1925 when the company was founded by Robert's father James Scott in a cotton mill.
- The company is one of the UK's largest designers, manufacturers, importers, and stockists of cleaning products for the professional janitorial market.
- Robert Scott is Europe's largest mop manufacturer, delivering over half a million mops each week to its customer base of over 1,500 businesses.
- Robert Scott's brands include P-Wave, Exel, Toucan Eco, Robert Scott Robotics, and is also the UK's primary supplier behind cleaning innovations such as Ecofibre Compostable Wipes, Pro-mist mop and Duop Cleaning Tool.
- Robert Scott is proud to manufacture a large volume of its own products in the UK and employs 230 staff across six sites in the North West of England.
